# PUBLISHER'S PERSPECTIVE

## By Josh Warburton

Every year as we get closer to the summer season, and certainly after a long winter as we've just had, I get antsy to get out and see some great live music. That's already begun for me this year having the opportunity to see a couple of my favorite artists this last month as well as going to a smaller festival with some great regional acts. Check out our big July calendar starting on page 10 for a ton of great live music and festivals.

Socializing and live music are two of the most important things in my life. They both have the power to bring people together, create memories, and make us feel alive.

That said, in the post-covid era I have found myself less likely to go out on any given evening, having gotten more used to staying in more since the time Covid hit, as so many social events were canceled. But

that seems to be changing for me, finally, as I'm more and more motivated to get to festivals and events.

But it's more than just fun and games. Socializing is essential for our mental and emotional health. It allows us to connect with others, share our experiences, and build relationships. When we socialize, we release endorphins, which have mood-boosting effects. We also get to learn about different cultures and perspectives, which can help us become more open-minded and

understanding.

Live music is another powerful form of connection. When we listen to live music, we are not only enjoying the music itself, but also the energy and excitement of the crowd. Live music can be a great way to relieve stress, have fun, and let loose. It can also be a powerful source of inspiration and motivation.

While not known for live music, Southern Utah's music scene has really been growing in the last couple of years.

Many venues and bars have been increasing their offerings this year and you can find so many of those options in our calendars of events both in print and online. This month's print calendar starts on page 10. We spend dozens of hours each month seeking out events and assembling our calendars, so we hope you'll take advantage of this valuable resource

If you're looking for ways to improve your life, I highly recommend socializing and attending live music events. They are two of the most powerful things you can do for your mental, emotional, and physical health.

So go out there and connect with others! Attend a live music event! And enjoy the many benefits that socializing and live music have to offer.

Here are some tips for socializing and enjoying live music:

- Make an effort to talk to new people.
- Attend events that interest you.
- Be open to new experiences.
- Don't be afraid to dance or sing along.
- Have fun and we'll see ya out there!

# THE CANYONS ARE CALLING YOU TO ESCALANTE

Celebrating its 19th year in the beautiful canyonlands of Southern Utah, The Escalante Canyons Arts Festival is making a few changes to increase interest and participation. In addition to their traditional plein air competitions, they will be sponsoring a few more events.

Two Paint-Out competitions will include a 24-hour Paint-Out within the Escalante City limits; the other will be a 2-hour Paint-Out in the park.

Winners qualify for some of the \$11,000 prize money available this year. Interested admirers can purchase right off the easel, increasing the artists' revenue.

Another new feature, specific to this year only, will be the artist in residence, Melody Greenlief, featuring a non-competitive Paint-Together on-site at Bryce Canyon in conjunction with the National Park's Centennial Celebration. This once-in-a-lifetime opportunity will create connections with fellow artists and nature like nothing else in the world.

The deadline for the Plein Air and Studio work is September 18. Other special

competitions include Nocturne, Miniatures, Quick Draw, and a Junior category. New for 2023, artists are invited to register to submit studio work in the competition and miniatures to be sold for a fundraiser. Recognition varies in each category.

Many varied demonstrations will be taught by veteran artists throughout the communities of Escalante and Boulder September 15-22 with an arts and crafts fair held on September 22-23 from 9 AM to 5 PM. More information can be found on their website [escalantecanyonsartfestival.org](http://escalantecanyonsartfestival.org).

**SIMONFEST THEATRE CELEBRATES 21ST SEASON**

July 6 – 29th, 2023

SimonFest Theatre Company is celebrating its 21st Season while mourning the life of a dear friend. Clarence Gilyard, star of stage and screen (best known for his role in *Walker, Texas Ranger*) was a long-time actor, director, and artistic executive with the company. The 2023 season will be dedicated to his artistry and memory.

The productions include *Into the Woods*, *The Importance of Being Earnest*, and *Marriage is Murder* and will play in Cedar City's Heritage Center Theater from July 6 – 29. *Into the Woods* will then travel to the Egyptian Theatre in Park City, performing August 10 – 20.

"Clarence was the source of great laughter and inspiration and was an invaluable guide in helping us define our mission and artistic integrity," proclaims Executive Director and Founder Richard Bugg. "We were honored to have worked with him and we hope to honor him with our productions this season."

The designs for *Into the Woods* will have an Asian influence. Director Rebekah Bugg, who is half Hawaiian, has drawn upon her childhood experiences with fairytales being told to her by both her Asian and Caucasian relatives. "I heard stories of Pele the Volcano Goddess one night and Cinderella the next," says Rebekah. "You

will see a mixture of these cultures in this rather unique production of a Sondheim classic." *Into the Woods* follows a Baker and his wife, who wish to have a child; Cinderella, who wishes to attend the King's Festival; and Jack, who wishes his cow would give milk. It is an epic fairytale with curses, a witch, and a giant centered on wishes, family, and our choices.

Richard Bugg directs *The Importance of Being Earnest* which is Oscar Wilde's most beloved and successful play. It combines a labyrinthine plot, the seemingly irresolvable narrative of a farce, and some of the most comic and wittiest lines ever written for the stage.

Emmy Award winner, Ellen Wheeler (known for her roles in *Another World*, and *All My Children*.) will direct Nick Hall's *Marriage is Murder*. Says Wheeler, "The plot follows the finest tradition of...underdogs fighting against all odds to rise above — boy meets girl, boy loses girl, boy finds girl, boy gets girl — rags to riches — voyage and return — overcoming the monster — rebirth; — all wrapped up in a sweet comedy package."

The SimonFest Summer Season runs July 6th through July 29th at the Heritage Center Theatre in Cedar City. For performance times and ticket information, go to [SimonFest.org](http://SimonFest.org) or call 435-267-0194.

**STAGE DOOR PRESENTS PICASSO AT THE LAPIN AGILE**

A Play Written Steve Martin  
July 27th - August 12th, 2023 at The Electric Theater

The Stage Door is excited to announce their Summer Comedy Play, **PICASSO AT THE LAPIN AGILE** by famous funny man, Steve Martin and directed by local, Kelly Thomas:

Imagine This - Paris, 1904. Einstein and Picasso walk into a bar... This is the set up for Steve Martin's long-running, off-Broadway, absurdist comedy, "Picasso at the Lapin Agile." The show places Albert Einstein and Pablo Picasso in the famous Parisian cabaret in 1904, just before the renowned scientist transformed physics with his theory of relativity and the celebrated painter set the art world afire with cubism. As the wine and wit flow, the egos ignite and the fate of the 20th century is celebrated as these giants of discovery are met by bar regulars in witty discussion about science, inspiration, art, love, heartache, and what it means to be right on the edge of doing something great with ones' life. In his first comedy for the stage, the brilliant comic genius and renowned actor/screenwriter, Steve Martin plays fast and loose with fact, fame, and fortune that promises gut busting laughter and infectious hope for a better tomorrow.

The amazingly talented cast of actors include southern Utah's best with experiences from both stage and screen. Joining us from Atlanta, New York, and Los Angeles is award winning stunt's woman, Kelly Bellini (playing Germaine) whose credits include everything from Glee to Avengers to the Walking Dead. As well, from the screen, Maren Smith joins us after working locally on Kevin Costner's film Horizon. Joining these film fems are St. George favorites, Coy Andrew Shinn Jr (A Bedfull of Foreigners, The Full Monty, We Will Rock You) as Pablo Picasso; Dean Jones (Utah Acting Legend seen on stage at SimonFest, Kayenta Center for the Arts, The Stage Door, Parowan and Cedar Valley Community Theatre) as Gaston; Jalee Scott (Boeing Boeing, The Full Monty, and current CoArtistic Director of the Stage Door Theatre) as the Countess; R Scott Zaborski (Legally Blonde, About the Boys) as Sagot; Eric Liebhardt (Something Rotten and Rent) as Albert Einstein; and welcomes newcomers Chops Downward as Freddy; Tyler Burton as the Visitor; Addicca Burgy

as the Female Admirer, CJ Adams as Charles Dabernow Schmendiman.

Steve Martin is one of the most well-known talents in entertainment. His work has earned him an Academy Award®, five Grammy® awards, an Emmy®, the Mark Twain Award, and the Kennedy Center Honors. As an author, Martin's work includes the novel An Object of Beauty, the play Picasso at the Lapin Agile, a collection of comic pieces, Pure Drivel, a bestselling novella, Shopgirl, and his memoir Born Standing Up. Martin's films include The Jerk, Planes, Trains & Automobiles, Roxanne, Parenthood, L.A. Story, Father of the Bride, and Bowfinger.

**THE INDEPENDENT MOVIE REVIEW**

**By Adam Mast**

**INDIANA JONES AND THE DIAL OF DESTINY (PG-13)**

★★★

Let me preface this review by stating the obvious; I LOVE INDIANA JONES!!

"Raiders of the Lost Ark" is the film I've seen the most times in my 54 years on this planet. It's an adventure movie of the likes we very seldom, if ever, see anymore. It's lightning in a bottle. A near-perfect motion picture experience that I simply never tire of. As much as I love both "Indiana Jones and the Temple of Doom" and "Indiana Jones and the Last Crusade" (and I do love both of those films with every fiber of my being), neither is at the same level as the film that started it all. Given my absolute passion for "Raiders of the Lost Ark," however, how could any of the other entries possibly measure up?

When "Indiana Jones and the Kingdom of the Crystal Skull" dropped in theaters in 2008 (nearly two decades after "Last Crusade" was released), I couldn't help but be excited. Who are we kidding? I was ecstatic! At that point, I don't think I had ever been that excited about a movie in my adult life. No...Not even with the arrival of new "Star Wars" movies. Of course, expectations can be a bitch and when unrealistically high expectations enter the equation, we have no one to blame but ourselves when a movie doesn't quite hit that sweet spot for us. That is especially true of yours truly.

I love film so much that I am easily excitable, particularly when it comes to my favorites. That certainly dampened my experience with "Crystal Skull." That was a movie I really thought I wanted but when I finally did get to see it, I realized pretty quickly that I only thought I wanted it. In fact, shortly before "Crystal Skull" opened, I joked that it didn't have to measure up to the previous 3 and that I'd settle with it being half as good as its predecessors. And wouldn't you know it? It was, arguably, half as good.

I didn't hate it like a lot of other fans do but there was no denying that it was a letdown of monumental proportions for me.

Was it those damned expectations? Partly. But a big part of it is just how unnecessary that movie is. Yes... "Crystal Skull" certainly has its entertaining moments (who in their right mind wouldn't find the idea of seeing Indy and Marion together again at least moderately appealing) but in the end, that movie as a whole played like a shadowy reflection of its former self.

An epic 15 years have now passed since "Kingdom of the Crystal Skull" divided fans. After months of waiting and a plethora of speculation and online scrutiny (some warranted and some not so warranted), "The Dial of Destiny" has finally arrived. And it comes to us with the great James Mangold at the helm marking the first time an Indiana Jones movie has hit the silver screen without the legendary Steven Spielberg leading the charge. It also comes to us with a now 81-year-old Harrison Ford at its center! Not that there's anything wrong with that as I'm sure Ford could take a man half his age in a fight.

"Indiana Jones and the Dial of Destiny" (which, sadly, ditches the traditional transition shot/cross-dissolve from the Paramount logo to the opening frame of the film) wastes no time plunging us into the Nazi-centric action as Indy (played by a de-aged Ford) takes on his favorite enemy once more, circa the 1930s. After an extended opening, we cut to the late 60s and are introduced to a considerably older, slightly grumpier (and shirtless) Dr. Jones who, after being awoken from his nap, gets after his hippie neighbors for blasting their rock music too loud.

Eventually, on the day of his retirement, Indy is re-acquainted with his god-daughter, Helena Shaw (played by Phoebe Waller-Bridge) and before long this unlikely duo is whisked away on a globe-trotting adventure that brings them face-to-face with old Indy foes, familiar friends from the past, and the mysterious title artifact.

As expected, "The Dial of Destiny" deals with themes of time and age head-on. Quite obviously, the film also deals with adventure, and through it all, Ford doesn't let a little thing like age keep him from riding horses, punching out bad guys, and climbing mountains. Yes...Every step of the way, Ford proves that there are still plenty of years AND mileage left in this vehicle. But it isn't just about physicality. Ford does manage to bring real emotional beats to the table (a scene in which he talks about his son with Helena is very moving) and he brings these beats when you might not expect them. In that regard, this weathered and more thoughtful Indiana Jones reminded me a little of another memorable character made popular by Harrison Ford; Jack Ryan.

**OUTDOORS**

**KENTUCKY LUCKY CHICKEN TRAIL**

**By Tom Garrison**

**Location:** Webb Hill in the city of St. George.

**Difficulty:** Moderately strenuous over a very rocky and often uneven trail with almost all the trail gradually going up or down—watch your step.

**Trail Length:** 3.8 miles loop trail  
**Average Hiking Time:** About 2 to 2 1/2 hours at a leisurely pace with many stops.  
**Elevation:** About 2,740 feet trailhead elevation with an approximately 300 feet elevation change from the lowest to the highest point.

**Family Friendly:** Watch your step on almost the entire trail—it is rocky and often uneven. It may be a bit strenuous for younger children.

**Getting There:** From St. George, go to Riverside Drive and turn south onto River Road. About one mile from the Riverside Drive and River Road intersection, turn right (west) onto Fort Pierce Drive. Stay on this road for approximately .2 miles and then turn left (south) onto Bloomington Hills Drive. After .3 miles, turn right (west) back onto Fort Pierce Drive. About 200 yards (or meters if you prefer metric) on this road, turn left (southwest) onto Hillrise Drive. Almost immediately, it becomes a rough, somewhat steep dirt road. Continue on Hillrise Drive for .3 miles until you come to the large trailhead sign on the right and parking areas on both sides of the road. This is the trailhead.

If you park at the trailhead sign, the trail starts near it or across the road, depending if you want to go clockwise or counterclockwise.

My wife, Deb, and I have hiked more than 230 different trails throughout the southwest in more than 35 years of exploring. Every trail, without exception, had a name that made sense. Many, perhaps most, are named for geological features such as arches or canyons (there must be scores of trails with "canyon" in the name throughout the Southwest). Others for animals or plants found in the vicinity of the trail. And there are those named after towns, or Native American names, or names of explorers or local people, or of the views offered from the trail. In all those years of exploring and doing hours of trail research, I've never come across a trail with such an odd name as "Kentucky Lucky Chicken Trail."

Furthermore, we did not see any Kentucky lucky chickens or chickens of any type while on the hike. Nor did we see rock formations in the shape of a chicken. The tendency for humans to perceive a specific, often meaningful, image in a random or ambiguous visual pattern, to see familiar

shapes in clouds, rock formations, that sort of thing, is called pareidolia. No chickens on this hike.

After some Internet research, I found an article by Lukas Brinkerhoff, one of the builders of the trail, telling how the trail got its name.

"Well, truth be told, when you are out traipsing through the desert, either looking for a route to put a trail or actually digging the trail, you find random stuff. I found an old KFC bucket. I am a vegetarian, and my find somehow turned into the chicken being lucky—even though it wasn't so lucky because it had already been killed and eaten. Nonetheless, it stuck, and now we have a trail called Kentucky Lucky Chicken, or KLC for short."

Okay. But it's still a strange name.

Our adventure began in late May. We arrived at the trailhead at about 9 AM with the temperature in the high 60s under a somewhat hazy blue sky. We parked at the trailhead sign. The trail starts near it or across the road, depending if you want to go clockwise or counterclockwise. We decided to go clockwise around this 3.8 miles loop trail following the sides of the large Webb Hill. The trail is not well marked, but easy to follow.

The first section is rocky (as is almost all the trail) with a constant, but gradual, incline through a boulder field. Other than the great views in all directions, the main feature of this section is a series of very long switchbacks. We moved slowly and picked our way through and over obstacles. The trail is rocky and often uneven; watch your step.

About 1/2 mile in is a very exposed turn called Lukas' Leap, and the trail runs along the edge of a cliff. Due to the switchbacks, we came back to these cliffs a couple of times.

Around 1.6 miles along the trail, we reached the top of the hill and the radio and cell phone towers. We were treated to excellent views of St. George, Bloomington, and the Pine Valley Mountains. The contrast between the red rocks, trees, and houses in urban areas, and the distant mountains was compelling. The views alone were worth the hike.

From here, the trail undulates as it descends through several drainages and wraps around the hill to reach the trailhead.

Along the way, we spotted a score or so of lizards (some very large), a few chipmunks, some birds, and one small fox. On the other hand, humans were comparatively rare. We only saw two bikers and one other hiker.

If one can overlook the name of this trail, easy enough, it is a good hike and workout with amazing views.

WASHINGTON COUNTY LIBRARY SYSTEM

OPINION

# CIVIL LIBERTIES AND THE PANDEMIC

By Howard Sierer

Supreme Court Justice Neil Gorsuch offers penetrating insights on the rampant civil liberties abuses that were mandated by overzealous government officials at all levels of government during the

pandemic. Citizens who defended civil liberties were often shouted down for endangering public health yet now we recognize that the abuses had little or no effect on COVID's spread.

Justice Gorsuch's use of the word "peacetime" in the first sentence below acknowledges another gross violation of civil rights: the World War II internment of Japanese-Americans with no discernable improvement in wartime security.

Justice Gorsuch:

"Since March 2020, we may have experienced the greatest intrusions on civil liberties in the peacetime history of this country. Executive officials across the country issued emergency decrees on a breathtaking scale. Governors and local leaders imposed lockdown orders forcing people to remain in their homes. They shuttered businesses and schools, public and private. They closed churches even as they allowed casinos and other favored businesses to carry on. They threatened violators not just with civil penalties but with criminal sanctions too. They surveilled church parking lots, recorded license plates, and issued notices warning that attendance at even outdoor services satisfying all state social-distancing and hygiene requirements could amount to criminal conduct. They divided cities and neighborhoods into color-coded zones, forced individuals to fight for their freedoms in court on emergency timetables, and then changed their color-coded schemes when defeat in court seemed imminent.

"Federal executive officials entered the act too. Not just with emergency immigration decrees. They deployed a public-health agency to regulate landlord-tenant relations nationwide. They used a workplace-safety agency to issue a vaccination mandate for most working Americans. They

threatened to fire noncompliant employees, and warned that service members who refused to vaccinate might face dishonorable discharge and confinement. Along the way, it seems federal officials may have pressured social-media companies to suppress information about pandemic policies with which they disagreed.

"While executive officials issued new emergency decrees at a furious pace, state legislatures and Congress—the bodies normally responsible for adopting our laws—too often fell silent. Courts bound to protect our liberties addressed a few—but hardly all—of the intrusions upon them...

"Doubtless, many lessons can be learned from this chapter in our history, and hopefully serious efforts will be made to study it. One lesson might be this: Fear and the desire for safety are powerful forces. They can lead to a clamor for action—almost any action—as long as someone does something to address a perceived threat. A leader or an expert who claims he can fix everything, if only we do exactly as he says, can prove an irresistible force. We do not need to confront a bayonet, we need only a nudge, before we willingly abandon the nicety of requiring laws to be adopted by our legislative representatives and accept rule by decree.

"Along the way, we will accede to the loss of many cherished civil liberties—the right to worship freely, to debate public policy without censorship, to gather with friends and family, or simply to leave our homes. We may even cheer on those who ask us to disregard our normal lawmaking processes and forfeit our personal freedoms. Of course, this is no new story. Even the ancients warned that democracies can degenerate toward autocracy in the face of fear.

"But maybe we have learned another lesson too. The concentration of power in the hands of so few may be efficient and sometimes popular. But it does not tend toward sound government. However wise one person or his advisors may be, that is no substitute for the wisdom of the whole of the American people that can be tapped in the legislative process. Decisions produced by those who indulge no criticism are rarely as good as those produced after robust and uncensored debate. Decisions announced on the fly are rarely as wise as those that come after careful deliberation.

"Decisions made by a few often yield unintended consequences that may be avoided when more are consulted. Autocracies have always suffered these defects... rule by indefinite emergency edict risks leaving all of us with a shell of a democracy and civil liberties just as hollow."

# GOOD LUCK PAYING UNCLE SAM'S DEBT

By Tom Purcell

The national debt broke the \$32 trillion barrier this week.

It's a number so huge it's incomprehensible to the average citizen.

We knew \$32 trillion was coming.

It just got here a lot faster than the money experts thought, thanks to the roughly \$5 trillion that the feds spent to help people and businesses withstand the many blows inflicted by Covid-19 and lockdowns.

If you are a good citizen who'd like to gift a few bucks to the federal government to help pay down the national debt, you need to know the good news and the bad.

The first bit of good news is that there's an obscure old government program designed to help you do just that.

In 1961 the Bureau of the Public Debt — part of the Treasury Department — began allowing donations that directly reduce the debt.

According to Title 31, Chapter 31 of the U.S. Code, any citizen is free to give a "gift" to Treasury, under the condition that the money will be used only to pay down the debt.

The second bit of good news, reports MSN, is that in 2022 a number of unknown individuals gifted \$1 million to Uncle Sam.

The bad news is, though, is really bad — our debt is at \$32 trillion. Broken out into \$1 million dollar increments, that is 32 million-million dollars!

Forbes reports that the debt is so large that two of the world's richest men, Elon Musk and Jeff Bezos, couldn't put a dent in it.

Their net worth is \$340 billion. If all their vast wealth was donated to debt reduction, our debt would go from 32,000 billion dollars to 31,660 billion dollars!

In other words, there really is no point in gifting money to a dead-end cause.

Still, lots of good-hearted Americans have been giving money to Washington for centuries.

According to a fascinating discussion on NPR, the earliest gift dates back to the Madison Administration in 1811, when a random citizen mailed in five dollars.

Though there was not yet any formal program to process such gifts, other citizens kept on sending money

in.

In 1843, continues NPR, the government set up a gift fund as a general all-purpose account. People donated checks, bags of pennies and even bags of gold!

Matt Garber, of the Bureau of Fiscal Service, said that in one instance \$63 in gold bullion was gifted.

In the 1950s, he continued, "patriotic Americans wanted to help the government pay back the money it had borrowed for war efforts."

That's why, in 1961, the government established a special account specifically for the purpose of reducing the national debt.

Though the Bureau keeps no official records on this program, a senior advisor shared some interesting anecdotes with me in 2010.

She said gift-givers generally mail in their checks with no notes attached. Others sign over their tax-refund checks and in 1992 someone gave \$3.5 million from their estate.

The record for the largest gift came in 1994 from anonymous donor — \$12 million.

As the debt continues to balloon, fewer Americans are gifting money to pay it down.

But who can blame them?

If our debt remained fixed at \$32 trillion and we applied the roughly \$1 million donated every year to pay down the debt, we'd pay it off in exactly 32 million years!

**GUIDE TO UTAH'S LIQUOR LAWS**

If you order an alcoholic drink at the restaurant bar, don't be surprised when the bartender asks you to order some food with your drink. In Utah, restaurants may only serve alcoholic beverages with food. Customers don't have to order food each time they buy another drink. The beer sold in grocery stores and gas stations, and tap beer is a bit weaker in Utah, limited to 3.2% alcohol content by weight (4.0% by volume), about 0.5% less than a typical American domestic beer. You can buy full-strength beer, along with liquor and wine, in a state-operated liquor store. Please remember to tip your servers and drink responsibly! The Utah State Liquor Store in Springdale is located inside the Switchback.

# Welcome To Zion from Zion Guide!

## Safety Tips For Zion

### Emergencies

For 24-hour emergency response, call 911 or (435) 772-3322. The Zion Canyon Medical Clinic is located in Springdale near the south entrance to the park. For hours, please call (435) 772-3226. Other medical clinics are located in Hurricane. The nearest hospitals are in St. George, Cedar City, and Kanab.

### Hydrate and use refillable water bottles

It is easy to get dehydrated while hiking and walking in the desert, so pack along extra water, and be sure to take rest and water breaks on long hikes. There are a number of places to refill your water bottles in Zion National Park including the visitors' center and Zion Lodge as well as a new hydration station at the Springdale bus stop in front of The Bumbleberry Inn and Zion Canyon Brew Pub.

### Be cautious near steep cliffs

Falls from cliffs on trails can result in death. Loose sand or pebbles on stone are very slippery. Be careful of edges when using cameras or binoculars. Never throw or roll rocks because there may be hikers below you. Stay on the trail. Stay back from cliff edges. Observe posted warnings. Please watch children.

### Watch for flash floods

All narrow canyons are potentially hazardous. Flash floods, often caused by storms miles away, are a real danger and can be life threatening. You are assuming a risk when entering a narrow canyon. Your safety is your responsibility.

## Tips To Minimize Your Impact

### Pack it in, pack it out & use recycling bins

Each month, Zion National Park pays many thousands of dollars to haul away waste collected from garbage cans and recycling bins. Your experience and that of everyone who visits Zion Canyon can be improved by never littering and making sure you pick up any trash you see along the way. Recycling bins are placed strategically throughout Zion Park, and it is highly encouraged for everyone to use them.

### Please stay on the marked trails

Hiking off trails can lead to loss of vegetation, soil compaction, erosion, and unsightly scars on the landscape. Remember, if you bring it in, please pack it out.

### Go before you go

It is always a good idea to use the restroom before you begin a hike since facilities are limited to select locations. If you do need to take care of your business, please pack it back out.

### Be respectful to the wildlife

Feeding, harming, or capturing wild animals is illegal and can cause injury or death to the animal. Animals can become aggressive beggars when fed.

### Please leave it how you found it

It is illegal to remove anything from Zion National Park, including flowers, rocks, or anything else that you might find. Do not write or carve on natural surfaces.

## Top Things To Do In Zion

### Get some great hiking in

Zion National Park is known for its scenic landscape and unrivaled hikes. No matter your fitness level, there are hikes here for you. Please go to [ZionGuide.com](http://ZionGuide.com) to see the details on many area hikes.

### Spend a day in Springdale

Springdale is unique to our national park system in that it is almost completely surrounded by Zion National Park. So when you're in Springdale, you're right in the middle of Zion Canyon.

### Catch an event

Not only does Zion Brew Pub have live music every Saturday, the property also hosts a handful of events throughout the year, as do the Bit and Spur restaurant, Tanner Amphitheater, Bumbleberry Inn, Wildcat Willies, and several other locations.

### Try a guided tour

Jeep, helicopter, ATV, canyoneering, horseback riding, or mountain biking, guided tours are all available. Many of these tours take you outside Zion National Park boundaries and give you a unique perspective on Zion's canyons and plateaus from surrounding areas of southern Utah. Check out [ZionGuide.com](http://ZionGuide.com) for listings and ads.

### Visit the east side of Zion and spend a day in Kanab

The east side of Zion is generally less crowded, making hikes more accessible and private. These are some of the most enjoyable hikes in the canyon. You can spot wildlife you won't see elsewhere in the canyon. The city of Kanab, situated east of the canyon, is full of unique attractions, like the Little Hollywood Movie Museum and the Best Friends Animal Sanctuary.

### Take lots of pictures, leave only footprints

Be sure you've got extra charged batteries, smartphone cables, and memory cards so you can capture all the magic of Zion National Park. Additionally, there are numerous photo tour and guiding companies to assist you. Thank you for visiting the Zion National Park area.

## Tips To Maximize Enjoyment

### Go on a less crowded hike

The most visited Zion hikes have a lot of competition. If you'd rather not feel like you're in the line at a theme park, consider seeking out a less traveled path. Check out our feature, [Less-Traveled Zion Hikes](#), in this issue.

### To avoid the crowds, go early or late in the day

Consider getting up extra early or trekking out midday after the initial rush has flooded in.

### Consider coming back again in the low season

Starting in the late fall, the number of visitors to Zion Canyon starts to dwindle, and by December it's significantly less than in the heat of the summer. It is simply a different experience to see Zion in the winter with the snow-capped monoliths. Most hikes are still accessible and are less crowded. You can also drive to the Temple of Sinawava parking lot. The shuttles stop running from November until March.

### Check out Kolob Canyons & Kolob Terrace Road

With gorgeous open spaces and plenty of dirt roads to explore, Kolob Terrace Road is one of Zion's best kept secrets. You'll notice the air getting cooler as you gain elevation, and you'll find plenty of beautiful views worth stopping at for a quick photo op. The Kolob Terrace Road turnoff is in Virgin, so watch for signs. Portions of the Kolob Canyon District of Zion National Park are reached via Exit 40 on Interstate 15.

## 2023 UPDATES FOR ZION NATIONAL PARK SHUTTLE SYSTEM

### Zion Canyon Shuttle System

No ticket, permit, or reservation needed to ride the park shuttle or enter Zion National Park

You do not need a permit or reservation to visit most areas in Zion Canyon.

You do not need a permit or reservation to ride a park shuttle.

You do not need a permit or reservation to enter the park.

You do need to pay the park fee.

You do not need a permit to hike the Narrows from the Temple of Sinawava going upstream in the Virgin River.

High water may prevent travel in the Narrows, so check the park's current conditions before you start your day.

Everyone who hikes from Scout Lookout to Angels Landing needs to have a permit. Learn more about the Angels Landing Pilot Permit Program.

### Important Shuttle Bus Information

The Zion Canyon Line, or park shuttle, runs from the visitor center up the Zion Canyon Scenic Drive to destinations like the Zion Lodge and trailheads, including Emerald Pools, West Rim Trail, and Temple of Sinawava, where hikers depart for the Narrows. There are two shuttle routes, and both are free. See our Park Information Guide for a map of the park shuttle.

The Springdale Shuttle, or town shuttle, is located in the Town of Springdale. It stops at 9 locations in town and picks up and drops off visitors at the park's pedestrian/bike entrance.

### Background

The shuttle system was established in 2000 to eliminate traffic and parking problems, protect vegetation, and restore tranquility to Zion Canyon. In 2017, park shuttles estimated more than 6.3 million riders. In 1997, visitation was 2.4 million and increasing.

### When The Shuttle Is In Operation

Zion Canyon Scenic Drive (the road that starts north of Canyon Junction) is closed to private vehicles when park shuttles are operating. The park is a large place; even when shuttles are running, you can drive a personal vehicle on the Zion Mt. Carmel Highway (which connects State Route 9 through the park), the Zion Mt. Carmel Tunnel, the Kolob Terrace Road, and Kolob Canyons Scenic Drive.

During most years, shuttles run:

Daily from March through November.

On weekends in February and March.

For the holiday season, near the end of December.

If you want to visit the Zion Canyon Scenic

Drive without riding a shuttle, you can use a bicycle or visit during the winter. The National Park Service posts updated schedule information on this webpage every season. We also update the shuttle schedule and a map of other roads in our park information guide.

### How To Use The Shuttle System

The Zion Canyon Shuttle connects the Zion Canyon Visitor Center to stops on the Zion Canyon Scenic Drive. Shuttles leave every few minutes and go either north or south. You can exit the shuttle at any open stop.

Check the map to see what to expect in the park. You may get on and off at any available shuttle stop. Most visitors start shuttle trips at the Zion Canyon Visitor Center, but if you are staying at the Zion Lodge, you can board the shuttle there. You cannot board a shuttle to go up the canyon (north) at Canyon Junction.

Read our Park Information Guide to see updated information about the open or closed stops.

If you drive to Zion, remember that National Park Service parking lots often fill early in the day. Paid Parking is available in the town of Springdale. If you leave your car in Springdale, you can ride the free Springdale Line shuttle to enter the park.

Learn more Traffic and Travel Tips before you arrive, and tune your radio to 1610 AM for more information.

# Zion National Park Hiking Info

## THE LOCALS' GUIDE TO HIKING PREPAREDNESS

National parks are seeing an uptick in helicopters carrying unfortunate hikers out of precarious situations.

In 2017, the National Park Service reported 324 search-and-rescue operations, which means 324 extremely unpleasant vacation experiences — nearly one a day. In 2014, the reported number was almost half that. The majority of those rescues occurred in Zion and Bryce Canyon National Parks, and most hikers who end up getting into trouble are either in their 20s or are older than 60.

Despite our highly skilled and dedicated rescue teams' valiant efforts, not everyone made it out of their predicaments safely. Twelve people lost their lives in Utah's national parks in 2017 alone.

It's hard to imagine one wanting a vacation amid the splendor of our national parks to involve search and rescue teams or a close encounter with death.

Zion National Park is often referred to as an outdoor Disneyland. But this is the

wilderness, and it's far less forgiving than any theme park. Here are some tips for how to safely enjoy your time in Zion Canyon.

### Bring water

You lose more water through perspiration than you realize, and if you are used to a more moist climate — and nearly any climate is less arid than southern Utah — you can become dehydrated quickly without realizing it.

The National Park Service recommends that hikers bring one gallon of water per hiker per day. There are fill stations throughout Springdale and the park that provided filtered water at no charge.

Natural water sources in the park such as creeks and streams are not reliable sources of clean drinking water. If you find yourself in a situation wherein you need water but have none, it is strongly advised that any locally-sourced water intended for consumption first be filtered, boiled for at least 10 minutes, or treated with iodine before consuming.

### Wear appropriate clothing

While most paths and trails are well maintained, this is the great outdoors, and a little loose gravel or slickrock can lead to injury — or worse. Think of appropriate footwear as an insurance policy — and if you are a little nervous, a hiking stick never hurts. Also, dress lightly if it's going to be hot, but be sure to use appropriate sun protection like sunscreen and large-brimmed hats, because suffering from sunstroke or severe sunburn during an already taxing hike can be brutal.

### Hike at your skill level, and don't take risks

Trails in Zion range from short and easy to long and challenging. Don't overestimate your ability and endurance level. And don't engage in horseplay or other activity that might endanger yourself or others. Some of Zion's hikes are steep, and you wouldn't be the first person to tumble down a hill — or worse, fall off a cliff. Zion is beautiful, but it's also dangerous, so respect yourself and

others by respecting the terrain.

### Leave wildlife alone

Animals instinctively avoid humans, but the area is home to everything from poisonous snakes to mountain lions. Never approach local wildlife — and never try to feed them. This can result in injury to visitors, and numerous visitors have required stitches after attempting to hand-feed animals. But when humans feed wildlife, it's also not good for the animals, who are already best suited to feed themselves.

### Hike sober

Sometimes relatively stationary outdoor activities like boating or camping involve enjoying an adult beverage or two. But when you're hiking the varied terrain of our national parks, you don't want your coordination, balance, or judgment to be impaired to any extent. Zion Canyon, Springdale, and Kanab are home to several fine restaurants and bars — but visit them for a cocktail after your hike, not before.

## PERMIT PROCESS FOR HIKING ANGELS LANDING IN ZION

### Apply to hike Angels Landing

SPRINGDALE, Utah — Planning a visit to Zion National Park this summer? Are you hoping to hike Angels Landing? Everyone who hikes Angels Landing must have a permit. Starting this year, you must apply for a permit to hike at Angels Landing, and you can now visit [www.recreation.gov](http://www.recreation.gov) and click on Permits.

"We expect many visitors will want to apply for a permit, so we made our process accessible, flexible, and fair." Superintendent Jeff Bradybaugh said.

[www.recreation.gov](http://www.recreation.gov) at (877) 444-6777 from 10 AM – 11:59 PM EST every day except for Thanksgiving Day, Christmas Day, and New Year's Day.

The lottery schedule is posted at [www.recreation.gov](http://www.recreation.gov) then click on permits, and we will share news releases and social media updates when we open those permit lotteries.

### About Zion's Angels Landing Pilot Permit Program

Everyone hiking past Scout Lookout to Angels Landing needs to have a permit.

This means you need a permit to hike on the half-mile section of the trail with chains. Hikers do not need a permit to go to Scout Lookout.

This is a pilot program, and the National Park Service (NPS) will monitor and adjust it as needed.

Angels Landing is one of many places people enjoy hiking in Zion National Park. The park recorded about 2.8 million total visits in 2011 and nearly 4.5 million in 2019. As the number of people who visit

Zion continues to rise, the NPS is preparing a plan designed to provide high-quality visitor experiences and sustainably manage park resources. The Angels Landing Pilot Permit Program will inform that planning process.

## Trail Closures (as of Nov. 2022)

*Hidden Canyon Trail, Watchman Trail, and Emerald Pools (all routes). Some of these closures are temporary.*

Hiking is popular in Zion National Park, and popular hikes are seeing record visitation at peak days and times. For a less congested trek, consider these less-traveled hikes.

### Northgate Peaks

By Don Gilman

The Northgate Peaks trail in the Kolob Terrace section of Zion National Park is an amazing trail with spectacular views. The trail itself is nearly flat, making it a perfect hike for families.

To reach the Northgate Peaks trailhead, take State Route 9 to the town of Virgin. Turn left onto Kolob Terrace Road. Drive for 15.7 miles through increasingly spectacular country until the short spur road (on the right) for the Wildcat Trailhead is reached. Drive a few hundred feet to the large parking area.

The trail heads east across grassy plains and stands of Ponderosa Pine with dynamite views of the towering Pine Valley Peak to the west. Soon the trail will be fully in the forest with limited views. After 0.9 miles, the junction with the Hop Valley trail is reached. Continue east, and 0.1 miles further, the junction with the Northgate Peaks Trail is reached. Head south on this trail for another 1.1 miles until the end of the official trail is reached at a rocky basalt bluff with epic views of the Northgate Peaks to the east and west and of North Guardian Angel to the south.

For families with young children, this makes an excellent turnaround spot.

### Gifford Canyon

By Bo Beck

Gifford Canyon offers a nice stroll through a sandy wash and is very charming when water is running. This hike is nearly 3 miles long and will take about 2 hours to finish.

To start this hike, park in the lot located immediately east of the Zion/Mt. Carmel Tunnel. The trail begins at the backside of the restrooms at the back of the parking lot. There will be a steep, sandy path to climb down before you enter Pine Creek slot. Follow the path upstream for almost 75 feet, and look for a 15-foot wall of slickrock. You can scramble up the rock or look for the beaten path on the backside of the rock.

On top of this wall is a narrow dirt path that is crowded by rock

### Chinle Trail

and vegetation. It winds around the mountain to a dead end with a beautiful view of the mountain where the Canyon Overlook Trail is located, opposite is Gifford Canyon.

The path will lead past stone bridge and to another minor slickrock climb. At the end of the canyon, there is a circle of cliffs preventing further exploration without climbing up the sandstone.

### Chinle Trail

By Greta Hyland

Chinle Trail is an off-the-beaten-path trail located in the lower elevation west desert wilderness area, offering wide vistas, desert landscapes, and a reprieve from the more touristy trails in the park. Though it's a long trail, it's a mellow hike that can be cut off whenever you feel like turning around. It's a great hike with kids because it's not treacherous, slippery, or steep. Avoid it after snow or rain as it will be muddy.

The Chinle Trailhead starts outside of Zion, south of Springdale. If you are coming from St. George, the turn is about a block before you hit the apple orchard and stand as you leave Rockville off of State Route 9. There is a parking area off the right of Anasazi Way near the Anasazi Plateau housing development. If you hit houses, you missed it. And yes, the trail starts below the housing development and takes you right through it. Don't worry though, it doesn't last long.

Shortly after you get through the housing development, you will hit a sign

letting you know you are entering the Zion Wilderness. At this point, you can breathe a sigh of relief, because you have gotten away from civilization to enjoy nature, and chances are that you won't see another soul until you return to your car.

### Many Pools - Temporarily Closed

By Candice Reed

The route is moderate with a gentle uphill climb to an alcove, but plan for a strenuous hike if you continue to the East Rim.

The route begins right off the highway. Drive to the pullout near the second drainage on the north side of the State Route 9, about 0.8 miles after the smaller tunnel. Walk carefully along the road about 150 yards and drop down into a sandy bowl on the north side of SR-9. There is a trail for a short distance, and then the sand turns into large flat stones that you can pick and choose to walk on, depending on your sense of balance. A short distance off the road, filled pools carved into the rocks appear. Ponderosa Pines and Juniper trees twisted by the wind are a good backdrop to the reds and whites ribboned through the rocks.

### Overlook Trail

By Charlotte Emett

The Overlook Trail is a short, beautiful hike located on the east side of Zion National Park, just outside the Mt. Carmel tunnel. The hike is about one mile roundtrip, and it usually takes people about an hour. It is definitely one of the easier hikes in Zion, but it's still

considered a moderate-level hike due to a few exposed areas and sandstone pathways, which can be slippery.

The Overlook trailhead lies right outside of the Mt. Carmel tunnel by the ranger booth. Exit the tunnel too quickly and you'll miss it.

It begins with a staircase carved out of the sandstone leading up and away from the road. Soon, you'll be walking along the side of the mountain and looking down into a thin crevice known as Pine Creek Canyon. At about halfway, you'll walk across a bridge that wraps around a corner and leads to an area of recessed rock wet with the moisture that caused it to erode and be filled with ferns growing out of the sandstone.

### The East Rim Trail

By Bo Beck and Tanya Milligan

After positioning a vehicle or making shuttle arrangements at the Weeping Rock parking lot, watch for the small "trailhead" sign along the Zion-Mt. Carmel Highway, immediately west of the east entrance booth.

This trail is said to be one of the most scenic in all of Zion National Park and is on many lists as one of the best hikes in Utah. This trek begins on the east side of the park and climbs over 1,400 feet to the rim. This hike begins with a backdoor view of Checkerboard Mesa as it skirts Clear Creek for a short time and steadily and gently climbs through a juniper and pine forest. On top of the mesa, scenery gets interesting as a spectacular view of Echo Canyon takes center stage.

The downhill finish is spectacular, keeping an almost constant view of some of Zion's greatest landmarks, including Angels Landing, Organ, Great White Throne, and in the distance is Cathedral Mountain.

# Popular Zion Hikes

## Trail Closures (as of Nov. 2022)

*Hidden Canyon Trail, Watchman Trail, and Emerald Pools (all routes). Some of these closures are temporary.*

Warning: These hikes are very popular and often overcrowded. While they are well worth doing, expect them to be a little congested.

If you are feeling up to some of the more difficult hikes, try some of these popular hikes.

### Angels Landing via West Rim Trail

Possibly the most popular hike in Zion, Angels Landing takes around four hours to complete, covers just under 5 1/2 miles, and requires a permit to hike. As you work your way up the 1,488-foot change in elevation, you'll want to look out for long drop-offs. This hike is not for young children or people with a fear of heights. Be sure to enjoy, but be careful along the last section of the hike, which is a steep, narrow ridge to the summit. The hike starts at The Grotto.

### Observation Point via East Rim Trail

This hike climbs through Echo Canyon to a viewpoint of Zion Canyon and offers access to Cable Mountain, Deertrap, and East Mesa trails. Plan for at least half of a day as this hike takes around five hours to complete and stretches over 8 miles. The 2,148-foot change in elevation from start to finish has long drop-offs, so be careful. Like Hidden Canyon Trail, this hike starts at Weeping Rock.

### The Narrows via Riverside Walk

A full-day hike at 8 hours, the Narrows can pose extra dangers depending on the weather. High water levels can prevent access to the Narrows, so be sure to check with the visitor center before beginning this 9 1/2-mile hike. You'll start this hike at Temple of

"Observation Point Revisited" - photo by David J West.

Sinawava.

### Kolob Arch via La Verkin Creek Trail

Getting to Kolob Arch via the La Verkin Creek Trail follows Timber and La Verkin creeks and connects to the trail to Kolob Arch, one of the world's largest freestanding arches. A full-day hike, it will take around 8 hours to finish the 14-fourteen mile trip. This hike starts at Kolob Canyons Road.

If you are looking for something more moderate, try some of these mid-range hikes.

### Kayenta Trail

This two-hour hike starts at the Grotto and goes for two miles. You'll gain 150 feet in elevation, and the trail does have long drop-offs. This unpaved climb connects the Grotto to the Emerald Pools trails.

### Canyon Overlook Trail

Starting at Zion-Mt. Carmel

Highway, this one-hour hike provides a 163-foot gain in elevation over the course of a mile. This rocky and uneven trail ends at a viewpoint for Pine Creek Canyon and lower Zion Canyon. While this trail is mostly fenced, there are long drop-offs.

### Taylor Creek Trail

You'll begin this five-mile hike at Kolob Canyons Road. It should take around 4 hours to complete and provides a 450-foot gain in elevation. Larger groups may need to split up, as this hike limits 12 people to a group. It follows the Middle Fork of Taylor Creek past two homestead cabins to Double Arch Alcove.

### Timber Creek Overlook Trail

A quick hike, the Timber Creek Overlook Trail covers just one mile and 100 feet in elevation gain. It can be done in about 30 minutes. The trail follows a ridge to a small peak with views of Timber Creek, Kolob Terrace, and Pine Valley Mountains.

Those looking for something less strenuous should check out these easy hikes.

### Pa'rus Trail

Starting at the Zion Canyon Visitor Center, this two-hour hike covers 3 1/2 miles and rises 50 feet in elevation. A paved trail that follows the Virgin River from the South Campground to Canyon Junction, Pa'rus Trail is wheelchair accessible and is open to both bicycles and dogs.

### Archeology Trail

Also starting at the Zion Canyon Visitor Center, this short half-hour hike covers just under half a mile and rises 80 feet in elevation, making it a short but steep trail. This trail offers trailside exhibits and views of several prehistoric buildings.

### Grotto Trail

Starting at Zion Lodge or the Grotto, this trail connects the two locations and can be combined with the Middle Emerald Pools and Kayenta trails to create a 2 1/2-mile loop. The non-loop version should take about 30 minutes and rises 35 feet over one mile.

### Riverside Walk

Starting at Temple of Sinawava, this 1 1/2-hour hike cover just over two miles and rises 57 feet in elevation. While it is wheelchair accessible, there are minor drop-offs. The trail, which is paved, offers trailside exhibits as it follows the Virgin Rivet along the bottom of a narrow canyon.

### Lower Emerald Pool Trail - Temporarily Closed Due To Falling Ice

This paved trail leads to the Lower Emerald Pool and waterfalls. It also connects to the Middle Emerald Pools Trail. It should take about an hour and covers just over one mile with 69 feet in elevation gain.

# Southern Utah State & National Parks

**ANASAZI STATE PARK MUSEUM** - This ancient Indian village in the heart of Utah's canyon country was one of the largest Anasazi communities west of the Colorado River. The site is believed to have been occupied from A.D. 1050 to 1200. The village remains largely unexcavated, but many artifacts have been uncovered and are on display in the newly remodeled museum. Anasazi State Park is in the picturesque town of Boulder on State Route 12. Group and individual picnic areas are available. There is no camping. (435) 335-7308.

**BAKER** - Baker Reservoir is a small lake on the Santa Clara River four miles north of Veyo on Utah State Route 18. It is a 63-acre lake with an average depth of about 20 feet. Many people come to the reservoir to camp at one of its 10 campsites and to fish. The reservoir is stocked with rainbow trout and contains brown trout, green sunfish, crayfish, redbreast shiner, and mountain sucker. It has picnic areas and vault toilets. There is a fee for visiting the reservoir and no boat ramp.

**BRYCE CANYON** - Bryce Canyon National Park is a scientist's laboratory and a child's playground. Because Bryce transcends 2,000 feet of elevation, the park exists in three distinct climatic zones: spruce/fir forest, ponderosa pine forest and pinon pine/juniper forest. This diversity of habitat provides for high biodiversity. Here at Bryce, you can enjoy over 100 species of birds, dozens of mammals, and more than a thousand plant species. (435) 834-5322.

**CEDAR BREAKS** - Sitting at over 10,000 feet and looking down into a half-mile deep geologic amphitheater. Come wander among timeless bristlecone pines, stand in lush meadows of wildflowers, ponder crystal-clear night skies and experience the richness of our subalpine forest. Just four miles off Utah Highway 148, you'll find the Cedar Breaks National Monument parking lot.

**CORAL PINK SAND DUNES** - At an elevation of 6,000 feet and 12 paved miles off U.S. Highway 89 near Kanab, this park provides a fantastic setting for camping, hiking, OHV riding or just playing in the sand. A 265-acre conservation area prohibits motorized vehicles in order to protect the Coral Pink beetle (found nowhere else in the world) and its habitat. The mule deer, jackrabbit, kit fox, coyote, and many small rodents also make the park their home. (435) 648-2800.

**DEAD HORSE POINT** - Dead Horse Point State Park is perhaps Utah's most spectacular state park. Dead Horse Point is a promontory of stone surrounded by steep cliffs near Moab. The overlook at Dead Horse Point is 6,000 feet above sea level. Two-thousand feet below, the Colorado River winds its way from the continental divide in Colorado

to the Gulf of California, a distance of 1,400 miles. (435) 259-2614.

**DINOSAUR TRACKS** - The St. George Dinosaur Discovery Site at Johnson Farm is home to exceptionally well-preserved dinosaur tracks, some displaying skin impressions. These tracks, along with hundreds of fossil fish, plants, rare dinosaur remains, invertebrates' traces, and important sedimentary structures, show evidence that this site was produced along the western edge of a large, Early Jurassic (age between 195-198 million years ago) freshwater lake. (435) 574-3466.

**ENTERPRISE** - There are two reservoirs in the Bull Valley Mountains 10 miles southwest of the town of Enterprise. The main one is Upper Enterprise Reservoir, about 250 acres with an average depth of about 50 feet, while Lower Enterprise Reservoir is 79 acres. Many come to the reservoir to camp, fish hike, and boat. The Honeycomb Campground

is situated between both lakes and has 21 campsites and flush toilets. There is a boat ramp on Upper Enterprise Reservoir and several fishing areas around both reservoirs. Fishermen will find rainbow trout and smallmouth bass here. Fees are charged.

**FOUR CORNERS** - The Four Corners is the only place in the U.S. where four states come together at one place: Arizona, New Mexico, Utah and Colorado. Here, a person can put each of their hands and feet in four states at the same time. The unique landmark is on Navajo Nation land and is open for visits from the public. West of U.S. Highway 160, 40 miles southwest of Cortez, Colo. (928) 871-6436.

**GRAND CANYON** - A World Heritage Site encompassing 1,218,375 acres on the Colorado Plateau in northwestern Arizona. The land is semi-arid and consists of raised plateaus and structural basins typical of the southwestern United States. (928) 638-7888.

**GRAND STAIRCASE-ESCALANTE NATIONAL MONUMENT** - Nearly 1.9 million acres of America's public lands and located between Bryce Canyon and Glen Canyon Recreational Areas. From its namesake Grand Staircase of cliffs and terraces across the rugged Kaiparowits Plateau to the beauty of the Escalante River Canyons, the Monument's size, resources, and isolated location provide amazing opportunities.

**GUNLOCK** - In scenic red rock country, 15 miles northwest of St. George, lies the 240-acre Gunlock State Park and Reservoir where year-round boating, water sports, and quality fishing for bass and catfish attract visitors. Facilities include boat launching ramp and pit privies. (435) 628-2255.

**LAKE MEAD** - Lake Mead National Recreation Area offers a wealth of things to do and places to go year-round. Its huge lakes cater to boaters, swimmers, sunbathers and fishermen, while its desert rewards hikers, wildlife photographers, and roadside sightseers. It is also home to thousands of desert plants and animals adapted to survive in an extreme place where rain is scarce and temperatures soar. (702) 293-8990.

**LAKE POWELL** - In Glen Canyon National Recreation Area is one of the world's great places for houseboating! The 186-mile-long lake offers sandy beaches, cool blue water, and exceptional red-rock scenery. It is excellent for boating, skiing, kayaking, and fishing. Boat or hike to Rainbow Bridge, or explore any of its many canyons or sand dunes. (928) 608-6200.

**PINE VALLEY** - Pine Valley Reservoir is a beautiful place for fishermen to fish brook trout and rainbow trout. The reservoir is near the Pine Valley Recreation Complex, which has over 150 campsites with picnic and restroom facilities. This area is greener than most other parts of southwestern Utah with pine and pinon trees, and many come to enjoy camping and hiking. It is west of the town of Central. (435) 652-3100.

**QUAIL LAKE** - Quail Creek State Park provides excellent year-round camping, picnicking, boating, and trout and bass fishing in sunny southwest Utah. The park is three miles east of the Interstate 15 Hurricane exit on Utah State Route 9. Facilities include 23 campsites, modern restrooms, a fish cleaning station, and two covered group-use pavilions. (435) 879-2378.

**SAND HOLLOW** - Looking to fish? Swim? Ride your ATV in the sand? Do all that and more at Sand Hollow State Park, located between St. George and Hurricane. Bring your boat, a picnic, and some fishing gear for a fun day on the reservoir, or watch the kids swim while you relax on the beach. Load up your RV or tent and settle in for a nice campout, or ride your ATV in the dunes of Sand Mountain. (435) 680-0715.

**SNOW CANYON** - Named after early Utah leaders Lorenzo and Erastus Snow, Snow Canyon State Park begins just outside of Ivins and stretches northward. Spectacular scenery includes towering red and white sandstone cliffs, black lava formations, and even a waterfall that appears during heavy rain. Snow Canyon offers 16 miles of hiking trails, beautiful sand dunes, technical rock climbing sites, horseback riding, year-round camping, nature studies, and wildlife viewing. This park is a favorite for locals and visitors alike. (435) 628-2255.

**ZION** - With breathtaking views, numerous hiking attractions of all difficulty levels and some of the most spectacular scenery on earth, Zion National Park and its surrounding areas attract thousands of visitors every year. This natural wonder is not only a mecca of recreational activity, but Zion and nearby Springdale host numerous cultural activities, as well. There's something for everyone in Zion - whether you're looking for a challenging hike or a fun excursion for the family. (435) 772-3256.
